

Installation Method

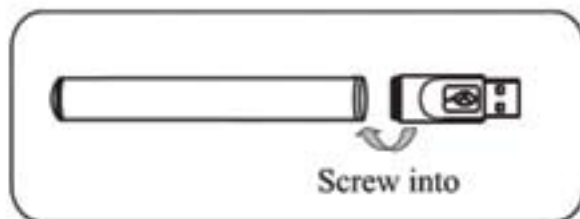

Screw the disposable cartridge into the battery.

Charging Method

Step 1

-Unscrew the battery from the disposable cartridge.

Step 2

-Screw the battery into USB Charger.
-Plug into any USB outlet.
-Total charge time is about 2.5 hours.
-Over charging may result in shorter battery life.

Notes:

1. Each cartridge yields approximately 300 puffs.
2. Please dispose of properly after use.

Caution

1. Keep away from high temperatures.
2. Keep out of reach of children.
3. Please protect mucous membrane from direct contact with the nicotine contained in the disposable cartridge.
4. Your VC To Go! lasts much longer than an ordinary cigarette. Do not enjoy in excess of the time and frequency of smoking an ordinary cigarette.
5. Do not assemble or use while driving.
6. Avoid improper operation.
7. While a substitute for smoking, VC To Go! still contains nicotine; Use at your own risk.
